

Complete track & trace packages for small businesses

Entry level packages start from as little as \$2450 (plus GST)

Rapid ID provides intuitive, affordable out-of-the-box data collection solutions for Fixed Asset Tracking, Check-in/Check-out, and Inventory Control.

Everything you need to start

- Barcode scanner (wireless upgrade available)
- Your choice of Inventory, Asset or Equipment management software
- Barcode thermal printer
- Barcode labelling software
- \$200 worth of labelling supplies

• Rapid ID packages

your complete solution compatible with most small business accounting software packages. Fast set up same day operation using world class products.

• The Inventory Control packages

will efficiently manage your stock movements and stock levels reducing errors and improving productivity.

• The Fixed Asset Tracking packages

will record all fixed assets and locate them quickly, maintaining details such as dollar value, use and replacement scheduling.

• The Check-in/Check-out packages

ensures accountability for loan equipment, supplies, books, tools and more while keeping track of who, what item, when loaned and what purpose it's being used for.

Contact Peacock Bros. today and let one of our expert staff members help you select the right package for your needs. (See over for more details)
